

## The ILA online atlas of leprosy - Leprosy NCD trends at global, W.H.O. selected Regions and Countries levels

February 2012

### Notes, abbreviations and sources

**N.B.** The data give only a gross indication of the global and regional leprosy trends.  
The countries reporting to WHO are different from one year to another. This makes comparisons imprecise.

\* Available data show an imprecision for South -East Asia and India for the year 1991  
Numbers should be higher for South-east Asia  
South -East Asia data not reliable also for 1992 and 1995

\*\* Available data show an imprecision for Americas and Brazil for the years 1991, 1997 and 2001  
Numbers should be higher for Americas

\*\*\* The 1985-1993 series of global data refers to 32 selected countries only.

#### Abbreviations:

**LML** Leprosy mailing list  
**NA** Data not available  
**NCD** New case detection  
**WER** Weekly epidemiological record
